OBJECTIVES

I will try to understand the nature of work with the help of my seniors and want to be a part of an institution where my technical skills can be utilized to bring my innovative ideas into reality.

SKILLS

Expertise HTML, CSS, JavaScript, ReactJs, Tailwind, Bootstrap, and Firebase.

Familiar NodeJs, MongoDB, NextJs, Sanity, and WordPress.

Hands-On Python, Selenium, Solidity, Web3, DApps.

PROJECTS

Project Name: **Watch's World** ([front-end code](#) | [back-end code](#) | [Live Website](#))

- This platform is built with MERN stack where People can buy and sell their watches. There is an admin functionality where the admin can add, and delete users as well as reported products.
- In the backend part, I integrate authentication with Firebase and NodeJs (hybrid). Authorization, jwt, and payment gateway like Stripe are also implemented.
- In the front-end part, I use Tailwind, daisyUi, Tanstack query, React form hook, custom hooks, and many more technologies.

Project Name: **Mark Fitness** ([front-end code](#) | [back-end code](#) | [Live Website](#))

- A fitness trainer website built with MERN stack. The user can add services, review a particular service and get a custom service as well.
- In the backend part, I integrate authentication with Firebase. Jwt functionality is there and for the database, I use MongoDB as well.
- For the front-end part, I use Tailwind, daisyUi, Fetch, custom hooks, and many more React features.

Project Name: **Coding Hub** ([front-end code](#) | [back-end code](#) | [Live Website](#))

- This is the course-selling platform where you can buy courses.
- Built with React, firebase, and nodeJs.

OTHER SKILLS, AND LANGUAGES

- I am also good at social media marketing. I know how SEO works behind the scene as well. I implemented off-page SEO in my WordPress websites.
- I can communicate in Bangla, English, and Hindi languages.

EDUCATION

Studied in Information Technology, Jahangirnagar University.
